

# THE REINHARDT REPORT

“For whatsoever is born of God overcometh the world: and this is the victory that overcometh the world, even our faith.” 1 John 5:4

## Prayer & Praise

- Thank you for praying for our visa process! This month, we made a quick trip to Lima to get things started. We will probably have to travel again in August to finish up. Thanks to a special offering by one our supporting churches a few months ago we have the entire process paid for!
- Thank you for praying for Neomi also! She got her cast off and is glad to have the use of both of her arms again.
- Please pray for Jesús. He is 19 years old. I would love to start studying God's Word with him weekly if he is willing.
- Pray for Paul, our Bible college student. He will be traveling back to Cusco for winter break. We are looking forward to having his help.
- Pray for two sisters who visited the church with their families. Nelly and Inocencia are their names.

Thank you all for your prayers on our behalf and for the ministry here in Cusco, Peru! We want you all to know that you are in our prayers as well. June is a month of festivities here in Cusco. The 24th is the city's anniversary so the entire month is filled with processions and parades, some giving homage to the sun god - Inti. Almost every school, institute, and university represents itself during the month with a group that dance or parade around the main square. It is an interesting month here, to say the least. Despite all the above, the kids were faithful to attend on Saturdays. We actually had our highest day since we've been back in Kid's Club. We were also able to gift many children Bibles this month (fellow missionaries gave us Bibles). Our adolescent group was down this month with some of them having to be involved in school programs for Inti Raymi (Cusco's Anniversary). We praise the Lord for many visitors this month at church. We had one Sunday where we had as many visitors as we did our regulars. Some of the visitors have not returned, but we are thankful for others who have. One particular visitor, a young man named Jesús, has come back three times. This is encouraging and I hope to start studying the Bible with him soon. The highlight of this month was Father's Day. As a church we traveled about 40 minutes away and spent the day in the country. We sang, I preached, we ate (of course), and we played a lot of volleyball and soccer. Everyone enjoyed themselves and we had several visitors come as well. It was a great day spent deepening our relationships with the people!
